

Important Assertion/Reason for class 9th

Ever felt stuck between two almost similar options in MCQs? That's where **tricky Assertion-Reason questions** come in! These aren't about mugging up facts rather they check if you really understand the idea behind them.

In Class 9 SST, you'll get one Assertion (A) and one Reason (R). Your job is to see if both are true and if the Reason actually explains the Assertion.

The more you practice these, the clearer your concepts become, and the easier it gets to avoid confusion in exams. Basically It means less guessing, more scoring!
